Description and Performance

- Physical barrier protects workers and bystanders from exposure to germs and respiratory droplets
- Easy to clean and sterilize
- Unit comes preassembled for quick installation
- Glass material resists scratches and remains clear
- Polyurethane rollers are non-marking and allow easy transfer to different locations
- Ideal for office environments, warehousing, manufacturing, food processing, and health care facilities
- Model 36901 features a 2" vertical slot to allow temperature checks for employees and visitors
